SUMMARY

A passionate fifth-semester Computer Science student with a strong interest in web development, eager to apply technical skills in real-world scenarios. I possess a solid foundation in front-end and back-end technologies. I am a proactive and detail-oriented individual who excels in problem-solving, team collaboration, and continuous learning. My ability to quickly adapt and apply new technologies allows me to deliver efficient solutions under tight deadlines. I am enthusiastic about contributing to innovative projects and am committed to leveraging my skills to help drive team success. With a strong motivation to grow within the tech industry, I am actively seeking opportunities to expand my experience in web development through internships or project-based roles.
